

## **American Council on Education (ACE) Information Related to SOH (CP-12) Certificate Programs and Military Training**

The American Council on Education (ACE) offers flexible pathways to postsecondary credentials through effective applications of credit for prior learning. The ACE website has credit recommendations and detailed summaries for CP-12 certificate programs courses and formal military courses and occupations offered by all branches of the military. The ACE National Guide showcases programs that have been evaluated by ACE for college credit equivalencies and workplace competencies.

The (ACE) link to USACRC and Defense Ammunition Center course credit recommendations can be found at ACENET.edu in the National Guide (<https://www.acenet.edu/National-Guide/Pages/default.aspx>). Safety and Occupational Health course credit recommendations can be found at <https://www.acenet.edu/National-Guide/Pages/Providing-Training.aspx?k=army%20safety%20center%20AND%20>

The military course guide is located at <https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Military-Guide-Online.aspx>

Beginning December 2020, ACE's transcript services for Learning Evaluations (formerly CREDIT®) are offered through a Working Transcript. Prior military and active duty personnel can obtain the ACE Credit recommendations thru the Joint Services Transcript at <https://jst.doded.mil/jst/> (used by the Army, Marine Corps, Navy, and Coast Guard). The Community College of the Air Force (CCAF) offers two-year associate of applied science degrees and provides transcripts to service members who have completed coursework from this curriculum. Air University is a professional military education system of the United States Air Force.

Effective December 1, 2020 transcript services for ACE's Learning Evaluations (formerly CREDIT®) migrated to Credly's Acclaim platform in an effort to provide enhanced credentials to learners and allow additional flexibility for providers. Many of providers are already issuing free digital transcripts and badges, some have elected to no longer participate in ACE transcript services, and others are still transitioning to the new system.

If you completed and passed a course or exam that carries Learning Evaluations recommendations, and your provider has already migrated to the new system, you will be sent an email invitation to claim your free badge. After claiming the badge, you may create an account on Acclaim and use that account to order free academic transcripts without further approvals. Visit Acclaim's Transcript help page for questions that may arise regarding Working Transcripts. More information on the process can be found at <https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Request-Transcripts.aspx>.

If you completed an ACE-endorsed course or exam and have not received an email invitation to claim your badge, please contact your training provider for more information. If you are not sure whom to contact at your training provider, please connect with the ACE Resource Center at [credit@acenet.edu](mailto:credit@acenet.edu) for assistance.
